

Senior DDI Migration Engineer – WFH
[DNS/DHCP/IPAM]

Company Overview: EfficientIP [www.efficientip.com]

EfficientIP is a network security and automation company specializing in DNS, DHCP and IP Address Management [DDI]. Our SOLIDserver™ Smart DDI approach offers enterprises and service providers a unique appliance-based solution to intelligently simplify and automate design, deployment and management of the critical DDI infrastructure. We promote business continuity by making your IP infrastructure foundation reliable, agile and secure.

Since 2004, we have continued to expand our reach internationally, providing solutions, professional services and support all over the world with the help of select business partners. Our passionate teams have delivered successful projects to over 1,000 customers globally, and ensured operational efficiency through dedicated customer care.

EfficientIP's client base includes hundreds of the most demanding companies in all business sectors and higher education to include Johns Hopkins University, Netflix, EADS, Cap Gemini, HP, STMicroelectronics and T-Mobile with an established presence in the US, France, the UK, Germany & Spain.

Location: Ideally the Philadelphia region but anywhere in the US [preference is east coast]

This will be a full-time WFH with up to 30% national travel to clients [when travel is permitted]

Position Summary:

We are looking for an experienced **DDI Migration Engineer** to be a part of our Professional Services Americas Team. The main focus is to deploy our EfficientIP solution for our customers and replace their legacy solution. This includes:

- Lead technical design meetings with customers
- Configure appliances
- Migrate data from existing DDI solutions to Efficient IP [i.e. from Microsoft, ISC, BlueCat, Infoblox, etc]
- Scripting and data manipulation for migration
- Assist with support during escalation and level 3/4.

Why this position is compelling:

- You'll always be technically challenged working with customers in every business sector who are looking to consolidate their DDI infrastructure
- As part of the onboarding, EfficientIP will provide hands-on training and you'll become Certified in our SOLIDserver solution
- You'll serve as the DDI subject matter expert and be instrumental in deploying EfficientIP
- Opportunity for growth

Qualifications:

- Strong technical experience with one or more of the following:
 - DNS, working and protocol [ISC, Microsoft]
 - DHCP, working and protocol.
 - TCP/IP, both IPv4 and IPv6.
- *Bonus points:*
 - Familiar with scripting to automate tasks (Perl, Bash, PHP, etc).

- Data migration experience
 - DDI vendor experience in a Professional Services capacity with Infoblox, BlueCat or similar
- Must be inquisitive, have the technical aptitude, curiosity and passion to become an SME in the DDI industry
- Must have worked in a customer-facing role
- Strong communication, interpersonal and presentation skills
- Strong technical problem-solving ability and troubleshooting skills
- Must have strong attention to detail, be organized, self-motivated and able to handle multiple projects
- Bachelor's Degree preferred
- Must be able to work in the US without any type of sponsorship
