

Software Project Manager

[DNS/DHCP/IP Address Management]

France – La Garenne Colombes (92)

Company Overview: EfficientIP [www.efficientip.com]

EfficientIP is a global provider of the most advanced and comprehensive DDI (DNS, DHCP, IP Address Management) products available. EfficientIP's Smart DDI approach offers enterprises and service providers a unique appliance based solution to intelligently simplify and automate design, deployment and management of the critical DDI infrastructure.

SOLIDserver™ centralizes all information from the IP plan and DNS and DHCP servers in one single interface and gives customers a consolidated overview to control the deployment of infrastructures and network services (VoIP, datacenters, etc.).

EfficientIP has built strategic relationships with a number of software and hardware market leaders to develop complementary solutions and to enable new offerings from partners. This includes Microsoft, VMware, OpenStack, Nutanix, Cisco, IBM, Hewlett-Packard, RedHat, ServiceNow, Tufin...

EfficientIP's client base includes hundreds of the most demanding companies in all business sectors to include Vodafone, Airbus, Capgemini, HP, Netflix, STMicroelectronics and T-Mobile with an established presence in the USA, Europe and Asia.

Location: France (HQ office – La Garenne-Colombes)

Travel occasionally (once all COVID-19 restrictions are lifted)

Position Summary:

We are looking for a high energy, results oriented and self-directed Technical Project Manager with a passion for driving the deployment of Efficient IP products on time and to a successful completion. This includes working closely with internal resources and customers to develop a detailed project plan and approach. Our ideal candidate will be part of a technical team responsible for project management activities in either a Pre/Post Sales or Professional Services capacity with a focus on deployment of solutions at a customer site.

Responsibilities:

- Ensure client requirements are captured accurately and completely.
- Create and maintain project documentation.
- Facilitate day-to-day coordination while adhering to standards and client expectations.
- Serve as a link between the assigned project resources and key stakeholders.
- Use disciplined project management methodology [based on PMP] to define scope, develop project plan, and execute projects that adhere to guidelines and deliver within the Statement of Work and schedule.
- Monitor projects on an ongoing basis, evaluating progress/quality, managing escalation/resolution.
- Monitor project time delivery and escalating issues if project budget is at risk.
- Use problem-solving/critical thinking skills, and independent thinking to overcome challenges.
- Communicate to project team members, key stakeholders and clients.
- Adapting to cultural and organizational climates across global team.
- Manage individual work styles and development of project staff.

- Work with cross-functional team, contractors, and vendors to deliver projects.

Required skills:

- Strong knowledge of network management and the problems customers face.
- Proven success managing project deliverables and timelines, navigating through obstacles and achieving customer satisfaction.
- Excellent written and verbal communication skills.
- Proficient with MS Project and PMP/PMI standards.
- Ability to correlate customer business needs to technical requirements.
- Must be able to work on multiple concurrent projects.
- Ability to work in high-pressure client-environments with aggressive deadlines.

What We Offer:

We offer a great opportunity to grow with our company, in a rapidly advancing and strongly innovative environment. At EfficientIP, we fully believe in congeniality in the workplace and in our relationships with our customers, partners and colleagues. We ensure a positive work environment that is encouraging, enthusiastic and motivating to our team. This approach breaks down barriers in order to stimulate our company's ambition of constant overachievement.

You will be part of a fun and ambitious team!
